API changes in HighQ 5.5 and the 2021 roadmap

Imran Aziz

Senior technical product manager – Integrations
January 2021

HighQ 5.5
API changes

New and updated APIs

- As multiple new features have been added to HighQ in 5.5 so we have kept our APIs up to date to help you work with the new features

- Multiple existing features have been updated and they require an update to the existing APIs

- Don't worry we are still backwards compatible

- API version 12 released with HighQ 5.5
